

Dear Tony,

Through my own struggles with Testicular cancer and all the heartache and troubles that can come with it I longed for a support network, and I even wish I knew more about it, what to look out for, symptoms etc. That's why I started my own foundation to help raise awareness and help other lads spot the symptoms and get help.

The fact that you are helping develop this awareness programme in Malta particularly as fellow sportsmen is heart warming to hear and I wish you all every success with it. It's hard work and often with tears but it's also very rewarding knowing you've helped make a difference to people's lives.

Wishing you every success

Best wishes

John
